Various Joint Ventures

OE Quality as
Controlled by the Group

TESTING & QUALITY CONTROL

TIMING CHAIN KIT EXAMPLE:

BGA uses OE (Original Equipment) parameters and tolerances as the mandatory MINIMUM requirements to pass our quality controls – meaning that our parts and components can and will often surpass OE.

TENSIONER SPRING RATE TEST

This test evaluates the core element of the tensioner [the spring] as the spring is responsible for more than 90%+ of the applied tension of the chain. Performance specification is critical.

GUIDE SIZING

Utilizing a CMM machine to evaluate Guide sizing against OE, guarantees original specification alignment and fitment.

TENSILE TESTING OF CHAINS

To meet the design criteria, parts are subjected to control pulling force with a range of difference parameters measured, presented as a line graph showing elongation, yield point, maximum operating load and maximum load.

VVT FUNCTION TESTING

ENSURING BGA VVT SPORCKETS OUTPERFORM THE ORIGINAL.

The VVT is mounted in a bespoke fixture which enables real world evaluation of torque performance, which is critical to its operation within the engine valve train.

ENGINEERED
IN GREAT BRITAIN

RESEARCH & DEVELOPMENT CENTRE

- » All parts tested to destruction before releasing from the production line.
- » OEM Quality guaranteed to be met or surpassed.
- » BGA parts can be re-engineered to improve or fix issues with original equipment.

STRONG BRAND PARTNER

VALUE ADDED SUPPLIER OF
AFTERMARKET PRODUCTS.

OEM EXPERTISE

- » Over 95 years of OEM manufacturing heritage.
- » Products engineered to exceed Original Equipment standards.
- » Supply to OEM.

SUPPORT AND SERVICE

- » Complete Kit Solutions.
- » Full technical assistance.
- » Tailored marketing support.
- » Customer-first approach.

GLOBALLY RECOGNISED

- » Global presence with partnerships in leading buying groups.
- » Participation in international exhibitions.
- » Multi-channel marketing campaigns viewed by millions annually.

#BESTUNDERPRESSURE

ENGINEERED
IN GREAT BRITAIN

MARKETING

- » 500 million+ views globally each year throughout BGA ads/influencer content.
- » Iconic British brand represented and respected in workshops globally.
- » BGA are heavily invested in supporting customers with marketing campaigns.

"Most prestigious award in the United Kingdom, awarded
by King Charles and the Prime Minister for quality,
service and growth in international trade"

BGA LOGISTICS

- » Larger facilities (160,000ft² with higher racking capabilities).
- » 10 Loading Bays.
- » High tech Warehouse management system.
- » Stock holding increase.
- » Increased speed, efficiency and accuracy.
- » Massively improved IT Infrastructure.
- » 10 Pallet high racking.
- » Large investments in machinery and equipment.

BGA 5-YEAR WARRANTY

Industry Leading

Across our Full Range

Fit with Confidence

YEAR

WARRANTY

PRODUCT RANGE

CAMTRAIN

Camshafts, Rocker Shafts, Lifters/Tappets, Rocker Arms, Valves & Guides, Valve Stem Seal Sets.

COOLING

Water Pumps, Thermostats, Water Flanges, Viscous Fans, Radiator Caps.

CRANKSHAFT PULLEY

Crankshaft Pulley, Crankshaft Pulley Bolts.

DRIVE BELTS & COMPONENTS

Drive Belt, Idler Pulley, Tensioners, Overrunning Alternator Pulley.

ENGINE VENTILATION

Rocker Cover, Inlet Manifold.

GASKETS, BOLTS, SEALANT

Head Gasket Kits, Manifold Gasket, Crankshaft & Camshaft Oil Seals, EGR Gaskets, etc.

LUBRICATION

Oil Pumps, Oil Control Valves, Oil Coolers with/without, Gaskets, Sump Pans, Sump Plugs, Transmission Plugs.

WHEEL BEARING KITS

Wheel Bearings Generation 1, Generation 2, Generation 3.

STEERING & SUSPENSION

Track Control Arms, Bushes, Stabiliser Links, Strut Mounts, Ball Joints, Tie Rod Ends, Engine Mounts.

TRANSMISSION

Drive Shafts, CV Joints, Clips, Grease, Boots, Power Steering Pump with/without Accessories.

TIMING BELT KITS

Timing Belt Kits, Belts, Tensioner, Idler Pulleys, Water Pumps, Bolts.

TIMING CHAIN KITS

Timing Chain Kits, Chains, Guides, Tensioner, Gaskets, Sprockets, VVT, Timing Cover, Bolts.

CS2335FK - DV5 ENGINE UPGRADE

OE 7MM PROBLEM:

MODERN ENGINES LIKE THE PSA DV5 ARE EQUIPPED WITH EGR AND DPF SYSTEMS IMPROVING MPG AND LOWERING EMISSIONS. THIS LEADS TO HARMFUL SOOT ACCUMULATION, CAUSING PREMATURE WEAR ON CRITICAL COMPONENTS SUCH AS THE TIMING CHAIN AND CAMSHAFTS.

BGA 8MM SOLUTION:

TO COMBAT PREMATURE WEAR OF THE TIMING CHAIN AND CAMSHAFT, OE AND BGA HAVE UPGRADED THESE COMPONENTS BY INCREASING THE CHAIN PITCH FROM 7MM TO 8MM, ALONG WITH MODIFIED CAMSHAFTS AND A CAMSHAFTS CARRIER.

**BGA CS2335FK
8MM UPGRADE KIT**

#BESTUNDERPRESSURE

ENGINEERED
IN GREAT BRITAIN

HIGH SEALING PROPERTIES AT EXTENDED TEMPERATURES, ENSURING 100% OF THE MATING SURFACES ARE SEALED. RESISTANT TO THE EFFECTS OF LUBRICANTS, COOLANTS, AND COMBUSTION GASES.

HEAD GASKETS ARE COATED WITH VITON™, A SYNTHETIC RUBBER AND FLUOROPOLYMER ELASTOMER. APPLIED IN A THIN LAYER, IT EMBEDS ITSELF INTO ANY IMPERFECTIONS IN THE CYLINDER HEAD AND BLOCK.

OE QUALITY
STANDARD SINCE 1929

DEVELOPED TO WITHSTAND EXTREME TEMPERATURE CHANGES, HIGH COMBUSTION PRESSURES, AND EXPOSURE TO COOLANTS AND LUBRICANTS.

GASKETS
