90+ YEARS OF GASKET MANUFACTURING

OE Manufacturer since 1929.

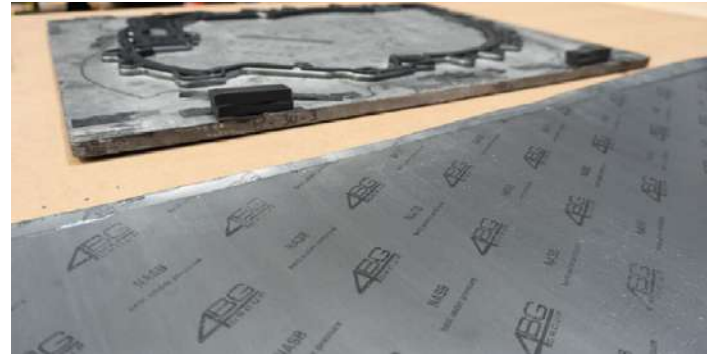

BGA is the Aftermarket Division of the 4BG Group, established in 1929 and crowned as one of UK's largest privately owned OE Manufacturers for some of the worlds leading vehicle brands.

The British Gaskets Group produce a wide range of Gaskets in the United Kingdom for a diverse range of industries including Automotive, Aerospace, Marine, Railways and Domestic appliances.

4BG Group and BGA Boast 8 manufacturing Factories in the United Kingdom, Europe and the far east.

Being part of 4BG Group gives BGA access to the latest OE manufacturing technologies, innovations, and expertise when it comes to manufacturing gaskets for the global Aftermarket.

BGA offer one of the largest Gasket, Bolt and Sealant ranges in the European Aftermarket, including more than 5,600+ quality references covering in excess of 300,000 applications.

BGA are recognised globally for OE matching quality Gaskets, head bolts and sealant with distribution channels in over 80 countries across the world.

REFERENCES IN RANGE:

- 365+ Head Bolts
- 5200+ Gaskets
- 330+ Conversion Sets
- 970+ Head Gasket Sets
- 1360+ Head Gaskets
- 550+ Inlet Manifold Gaskets
- 700+ Rocker Cover Gaskets
- 420+ Exhaust Manifold Gaskets
- 400+ Oil Seals

QUALITY STATEMENT

Gaskets, Bolts and Sealant.

OE Specification.

BGA uses OE (original equipment) parameters and tolerances as the mandatory MINIMUM requirements to pass our quality controls – meaning that our components can and will often surpass OE.

3 Year Guarantee.

BGA offer a 3-year warranty on all products to back up the quality statement.

Mechanics will always endure full satisfaction and peace of mind while fitting a BGA high quality parts and components.

Strength in depth

In our constant drive to offer the aftermarket the smart choice we are continually enhancing and developing our kit solutions. Our Head Gasket sets are already renowned for being the most comprehensive in the marketplace.

BGA are always one of the first to market with new releases to range, with over 1,000 products released annually. Strictly ensuring parts contains all necessary components for a complete install.

Steel Gaskets

BGA's Single Layer Steel (SLS) and Multi-layered steel (MLS) gaskets are stronger and have a high level of temperature resistance, whilst maintaining a perfect seal under both vertical and horizontal movement.

Cylinder Head Gaskets

BGA Gaskets feature a Viton™ coating which is a synthetic rubber and fluoropolymer elastomer, applied in a thin layer it embeds itself into any imperfections in the cylinder head and block. When the gasket is clamped, it exhibits high sealing properties at extended temperatures and ensures 100% of the mating surfaces are sealed.

Fibre Gaskets

Fibre Gaskets are produced with additional rubber or silicone beading to increase sealing areas around crucial areas on the Cylinder Head, again ensuring all imperfections in the block are sealed.

Rubber Gaskets

In areas where a rubber gasket is required we use three OE quality materials. Polytetrafluoroethylene Oil Seals (PTFE), Nitrile Butadiene Rubber (NBR) and Alkyl Acrylate Copolymer (ACM) The use of PTFE seals means that the Seal can be fitted with very little or without lubrication as well as having a very high thermal tolerance.

NBR and ACM Rubber gaskets are both designed to withstand temperatures up to 150°C.

Cemjo Gaskets

A composite gasket material consisting of a heat resistant Non-Asbestos joining combined with a perforated and tanged metal facing on one side.

Cemjo Gaskets are mainly used for Manifold gaskets, this material can withstand temperatures of up to 800°C, whilst also being oil and water resistant.

THE SEALING SOLUTION.

Gaskets, Bolts and Silicone Sealant.

SILICONE SEALANT

Industry leading RTV Silicone Sealant.

Quick curing, permanently elastic and solvent free designed to seal machined and non-machined flat surfaces with the ability to withstand temperatures from -50°C to $+300^{\circ}\text{C}$.

Suitable for many applications including valve covers, oil pans, timing covers and water pumps.

When 25pcs are purchased, the silicone will come in a display box which can be used as a counter display.
