BG Automotive Manufacturing

The Group's manufacturing expertise means products are produced for a wide range of industries - ranging from Automotive, Aerospace, Agriculture, Communications, Defence, Domestic Appliances, Industrial Fluid Control, Maritime, Petrochemical and Rail.

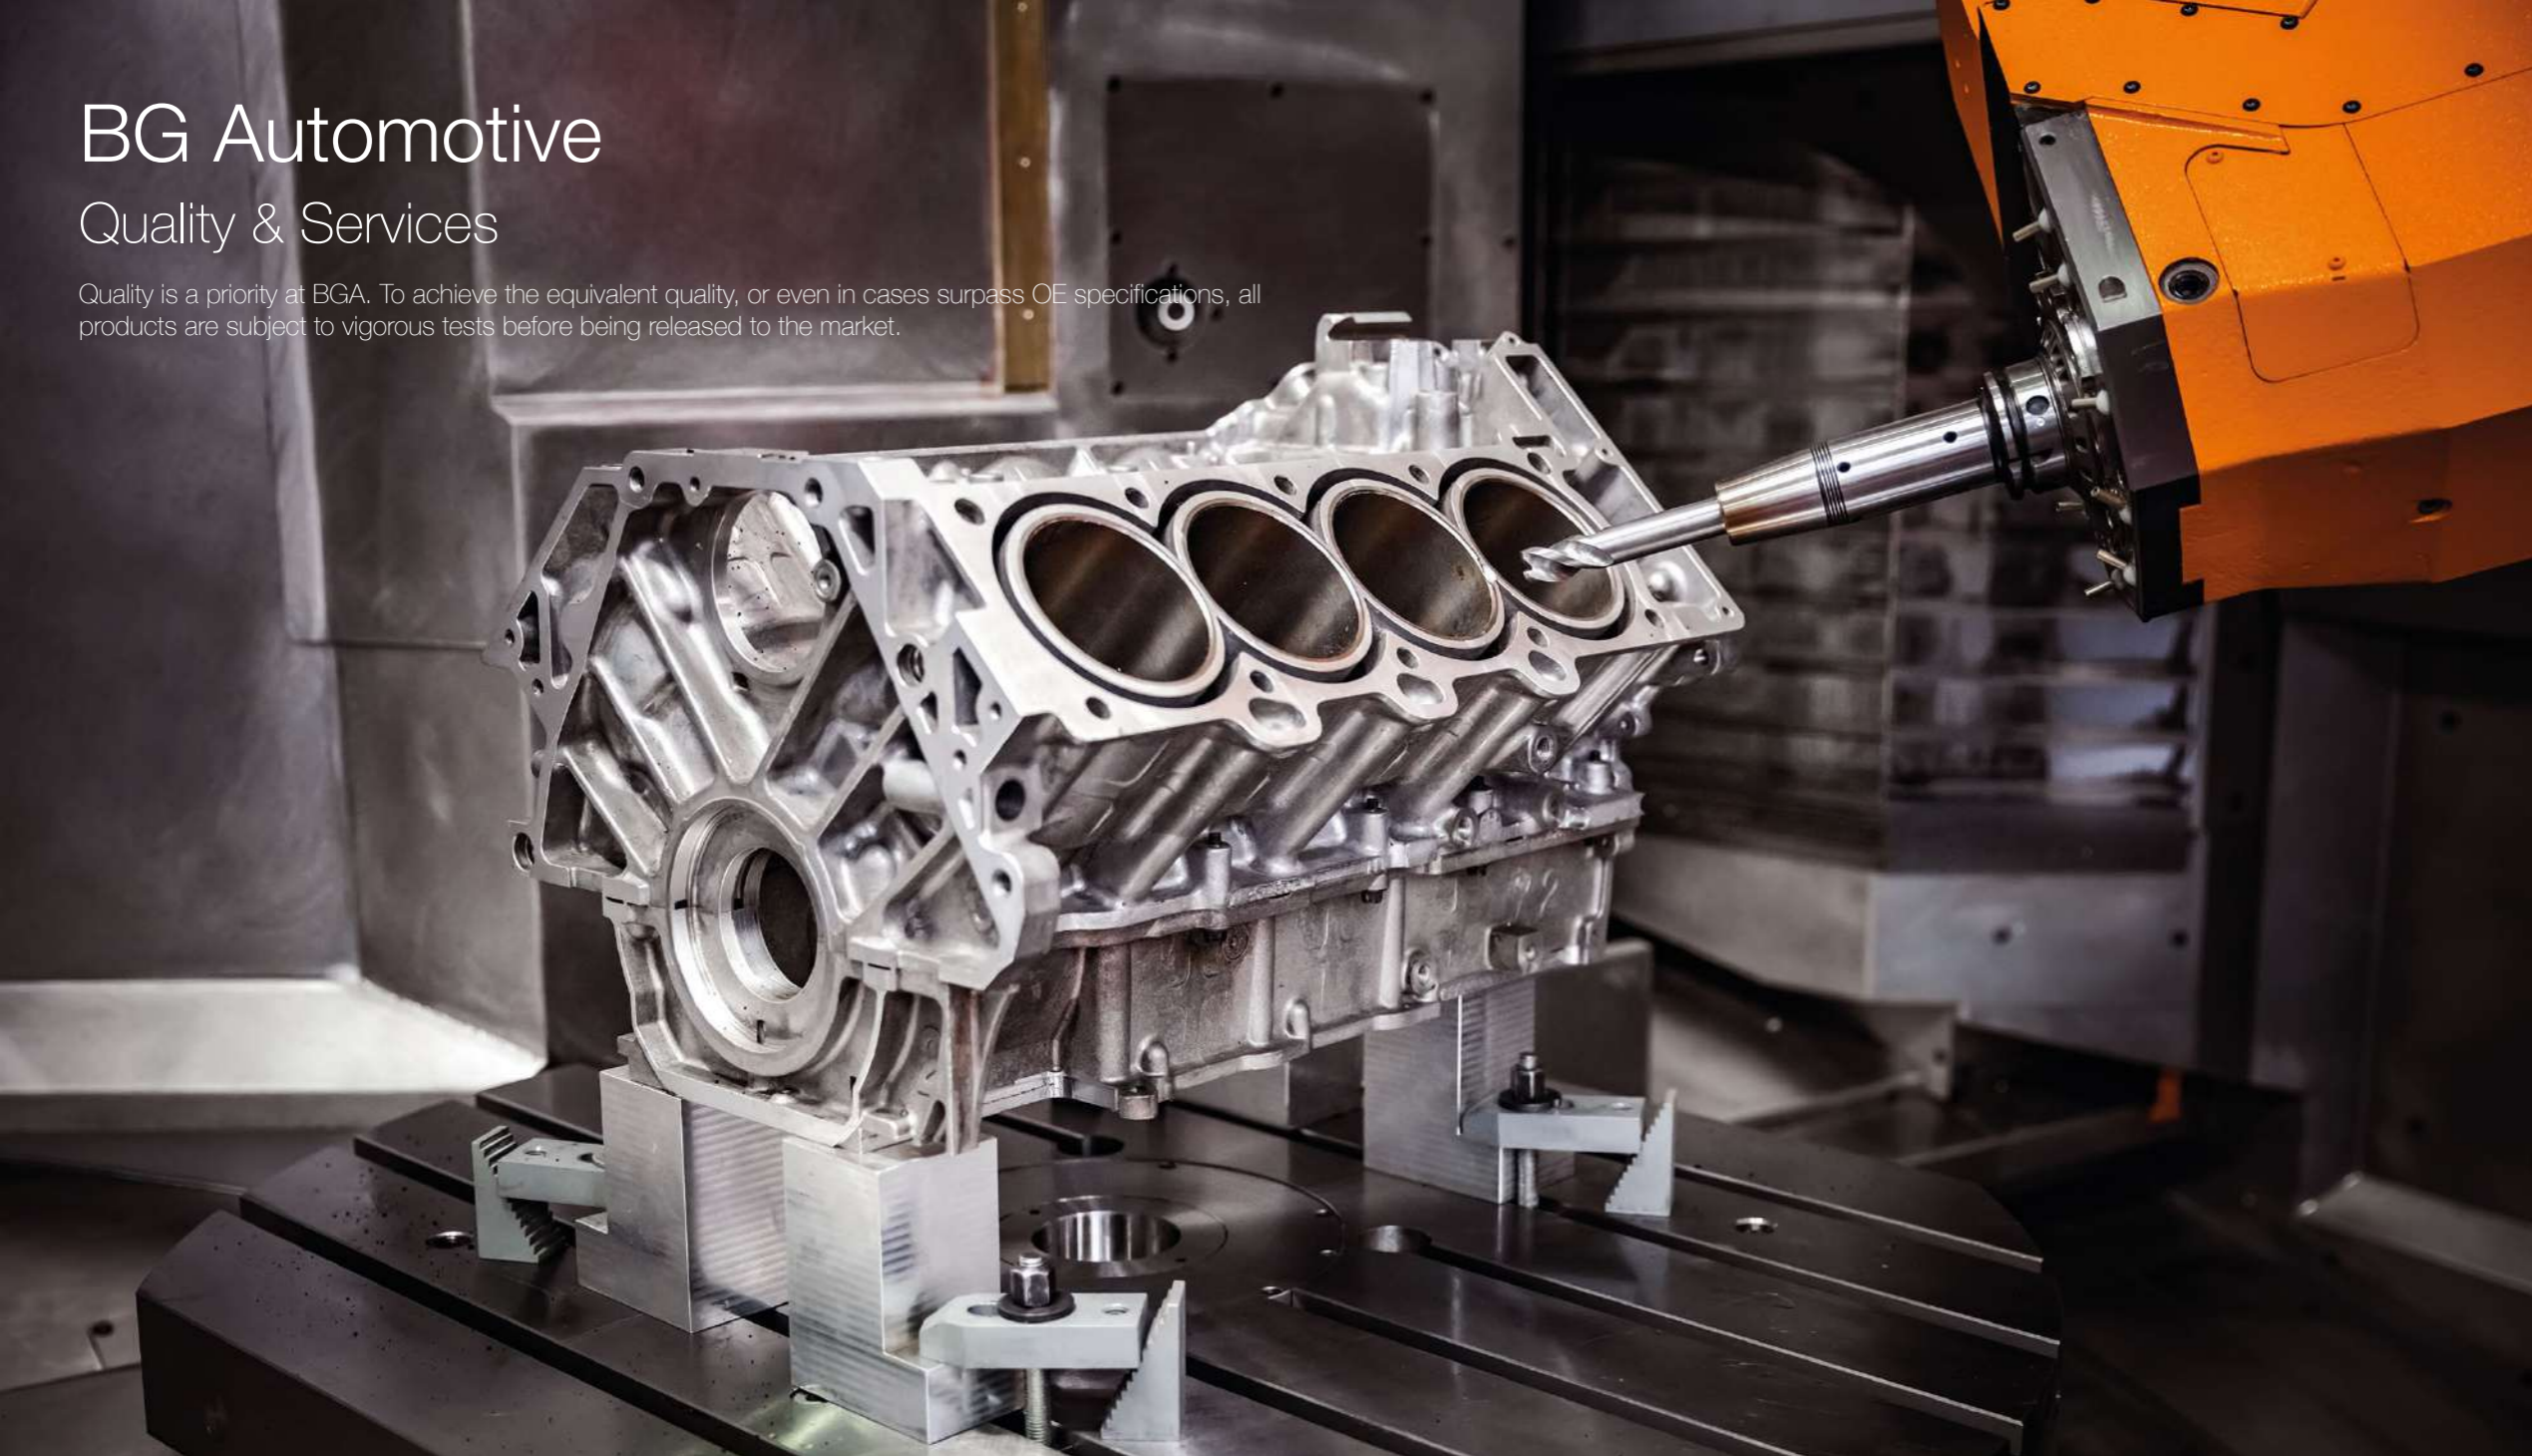

This gives all companies within the group access to state of the art manufacturing techniques, experience and equipment, further giving BG Automotive the edge when it comes to production of high quality products for the Automotive Aftermarket.

BG Automotive

Quality & Services

Quality is a priority at BGA. To achieve the equivalent quality, or even in cases surpass OE specifications, all products are subject to vigorous tests before being released to the market.

TRAINING

BGA develop and deliver accredited training programs across our full product range to help our partners stay extremely competitive.

SALES & MARKETING

BGA offer all of the right tools for your sales & marketing activities. Our Portal simplifies and accelerates the sales and marketing process.

TECHNICAL SUPPORT

BGA boasts a large team of technical experts and engineers who are on hand to resolve any issues for customers.

CUSTOMER SERVICES

Friendly, experienced and multi-lingual customer services team available at your request.

BG Automotive awarded Queens Award for Enterprise (the UK's highest accolade for business success).

4BG Group is certified IATF 16949:2016.

BGA is certified ISO 9001:2015

Warehouse

40,000+ Parts available electronically in BGA's high bay state-of-the-art warehouse with a 95%+ availability rate for same day pick & dispatch.

Worldwide Logistics

Whether your order consists of a parcel, carton, pallet or container, all products are available for same day shipping by air, sea, road or express.

BGA Auxiliary Drive

Whats included?

- + Drive Belt (Kits available)
- + Overrunning Alternator Pulleys
- + Tensioners
- + Idler Pulleys

BGA's Auxiliary Drive range covers in total, in excess of 74,000 applications providing one of the most relevant ranges within the aftermarket industry. Having expertly tested and developed in house, directly against OE parts by our technical engineering team, we are proud that the entire range meets and surpasses OE quality standards for excellent customer satisfaction and trouble-free performance.

Each of BGA's drive belts use heat resistant ethylene propylene diene monomer (EPDM) rubber in their construction. The belt then features perfectly bound nylon aramid cords for additional strength and stretch resistance. To finish off the build, the belts feature a fabric coating on the back to ensure low noise and increased high wear resistance for long life performance. The rest of the range features precision engineered componentry including OE matching bearings and pinch rollers.

BGA Camtrain Range

Whats included?

- + Camshafts (Kits available)
- + Rocker Shafts
- + Lifters/Tappets
- + Rocker Arms
- + Valves & Guides
- + Cam Adjusters

BG Automotive provide one of the most complete ranges of expertly engineered high quality aftermarket Camtrain products in Europe. The range including Camshafts, Camshaft Kits, Cam Followers, Rocker Shafts, Lifters and Rocker Arms. Featuring an extensive range of over 1,300 OE quality references.

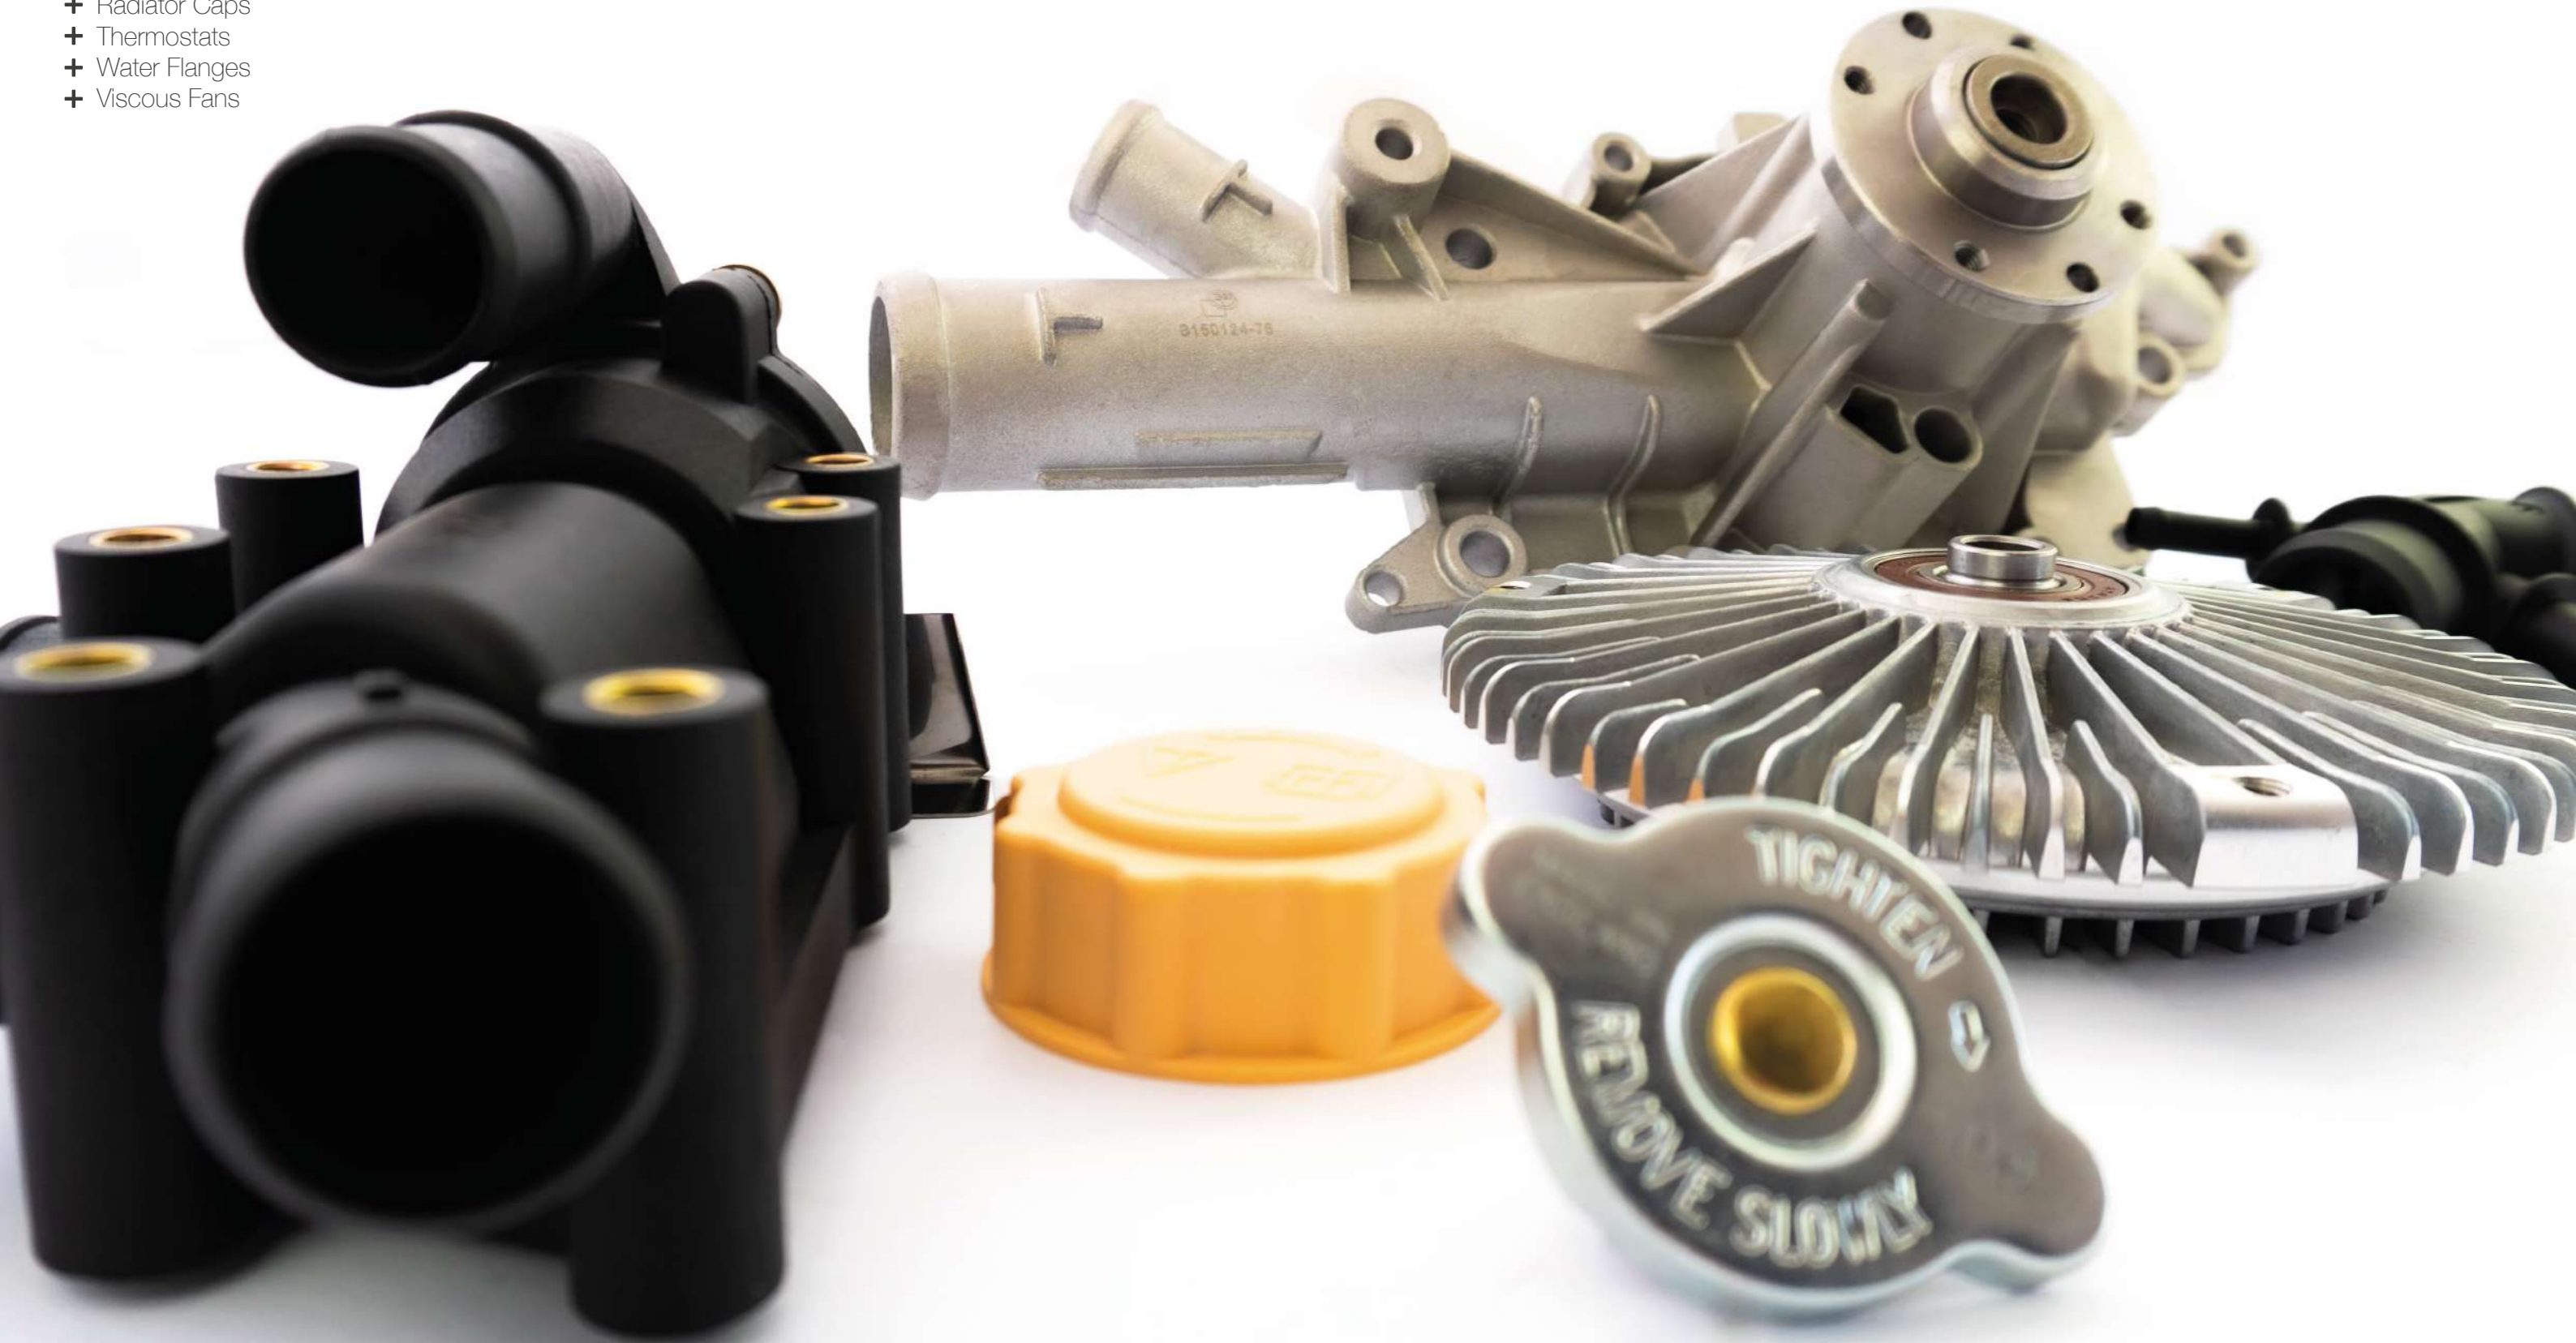

BGA's comprehensive range of Camtrain products have been designed to meet the highest standards. To ensure these standards are met, all Camtrain products have been tested endlessly on bespoke real-life simulation machines, including hardness and surface tested by BGA's experienced Technical Engineering Team providing confidence in our products. All of our references are individually packed for protection.

BGA Cooling Range

Whats included?

- + Water Pumps
- + Radiator Caps
- + Thermostats
- + Water Flanges
- + Viscous Fans

BGA's product development teams have refined and defined their expansive cooling range to ensure that the highest quality, performance and efficiency is provided in every product. An example of which is by providing stainless steel or aluminium impellers over OE plastic. BGA are now a dependable solution for matched or surpassed OE quality and an impressive range of over 1,700 references.

To ensure the utmost quality, BGA's cooling range is engineered and tested using the latest technology in a state-of-the-art facility located in the United Kingdom. BGA are insistent on employing stringent quality control inspections throughout the process, ensuring the range continues to outperform in the aftermarket.

BGA Crankshaft Pulley (TVD)

Whats included?

- + Crankshaft Pulley
- + Crankshaft Pulley Bolts
- + Crankshaft Pulley Kits

BG Automotive provide one of the most relevant and up-to-date ranges of Crankshaft Pulleys; from the basic Harmonic Single Piece Pulley to the more complex Decoupled Pulley. With over 400 different references available, BGA's Crankshaft Pulley ranges cover in excess of 5,000 applications, the largest range in the aftermarket.

Utilising our OE manufacturing heritage we are able to ensure perfect rubber to metal bonding and shore hardness of rubber components in the dampers giving the best quality in the aftermarket.

With BGA's Crankshaft Pulley Kits, installers are no longer burdened with having to source the correct TTY Crank Pulley Bolts and can fit the kit safe in the knowledge that the correct variant has been provided.

BGA Gaskets, Head Bolts & Silicone

Whats included?

- + Gaskets
- + Head Bolts
- + Silicone Sealant

- + Cylinder Head Gasket
- + Head Gasket Set
- + Head Gasket Set (w/o Cylinder head gasket)
- + Manifold Gasket
- + Crankshaft Oil Seals
- + Camshaft Oil Seals
- + Differential Oil Seals
- + Timing Cover Gasket
- + Valve stem seal sets
- + Rocker cover Gasket
- + Rocker cover Gasket Sets
- + Sump Pan Gaskets
- + Sump Pan Gasket sets
- + Rubber O-Rings
- + EGR Gaskets
- + Gasket Repair Material
- + Sealant

BGA offer one of the largest Gasket, Bolt and Seal ranges in Europe, including more than 14,000 quality references covering in excess of 50,000 applications. BGA's gasket manufacturing heritage goes back to 1929!

The range features the very best technologies and materials such as Stainless Steel, Viton™, PTFE, NBR, ACM & Cemjo. Coupled with the 4BG groups manufacturing facilities and skill in the UK, we offer a complete, unsurpassed solution.

BGA Lubrication Range

Whats included?

- + Sump Pans
- + Sump Plugs
- + Oil Pumps
- + Oil Control Valves
- + Transmission Pans

BGA's Lubrication range features Oil Pumps, Oil Control Valves, Sump Pans and Sump Plugs. The range encompasses more than 600 references offering one of the largest and market leading ranges in the aftermarket.

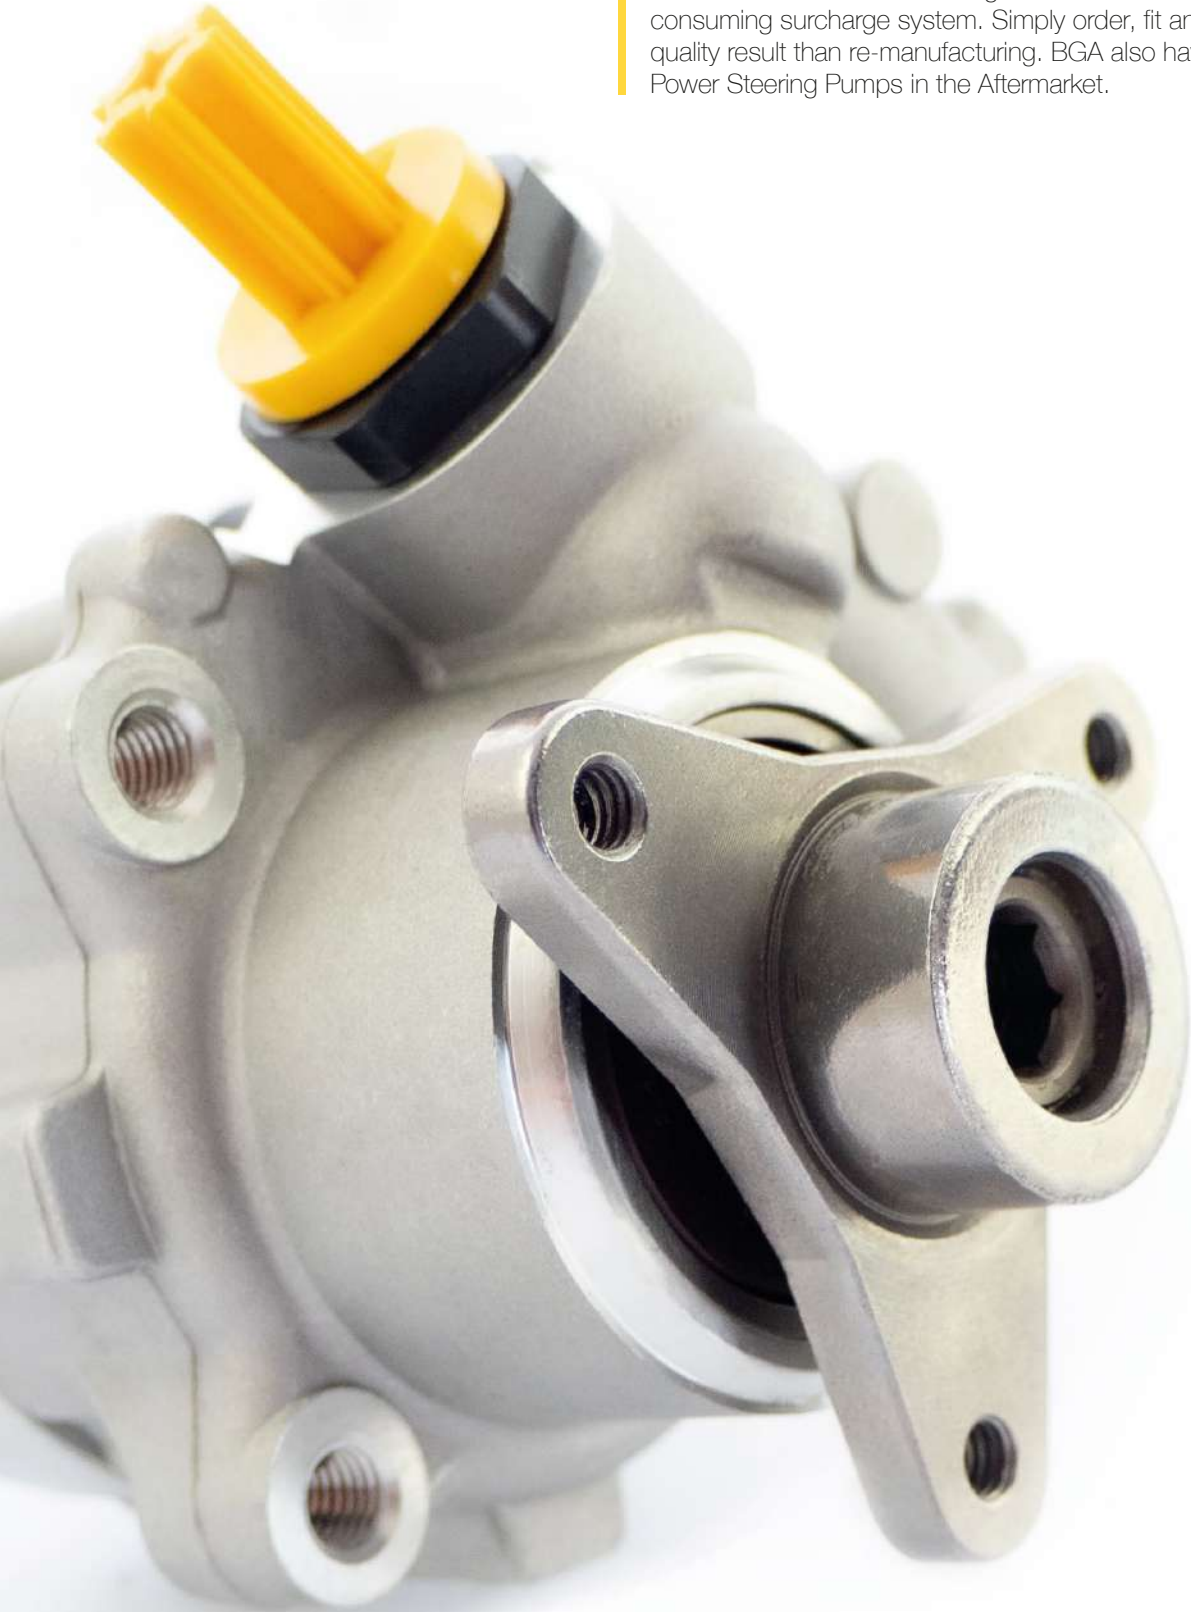

BGA manufactures its Oil Pumps from premium aluminium and cast steel using the latest manufacturing techniques, managed by an industry leading Technical Engineering Team. Oil Pumps are also subject to a rigorous testing procedure including surface, bench and endurance tests, performed across the entire range.

BGA Power Steering Pumps

Largest range of brand new PSP's in the market!

Giving unsurpassable quality to the aftermarket - BGA only manufacture 100% brand new Power Steering Pumps, avoiding the inconsistencies that can occur with remanufacturing. As a result there is no time and cash consuming surcharge system. Simply order, fit and finish with a higher quality result than re-manufacturing. BGA also have the largest range of Power Steering Pumps in the Aftermarket.

BGA guarantees that 100% of their Power Steering Pumps are rigorously tested throughout the manufacturing process, before being subjected to multiple levels of quality control prior to being released for sale. Every pump is manufactured using the latest OE technology in a state-of-the-art, environmentally and controlled facility. No surcharge system required.

BGA Steering & Suspension

Whats included?

- + Track Control Arms
- + Ball Joints
- + Stabiliser Links
- + Tie Rod Ends
- + Bushes
- + Strut Mounts
- + Engine Mounts

BGA continues to dominate the aftermarket with choice after the recent release of Steering & Suspension. Quality management and testing procedures remain crucial to keep up with the quality of our engine components before products are released from BGA's UK HQ. The range now exceeds an impressive 4,750 relevant, modern references.

All Steering & Suspension parts are tested to 1 million cycles for longevity and resistance, electronically coated, and subjected to 2,000 hour salt spray corrosion tests reducing corrosion against salt, dirt and water ingress.

Timing Belt Kits

Whats included?

- + Belt(s)
- + Tensioner(s)
- + Idler(s)
- + Bolt(s)
- + Water Pump

BGA's Timing Belts, Components and Water Pumps Kits are an excellent solution for the Aftermarket. Stringent quality control inspections throughout the process, ensure the belts, components and pumps continue to outperform in the aftermarket. Most of the range features upgraded materials as standard vs OE equipment. Over 95% of the UK Car Parc is covered.

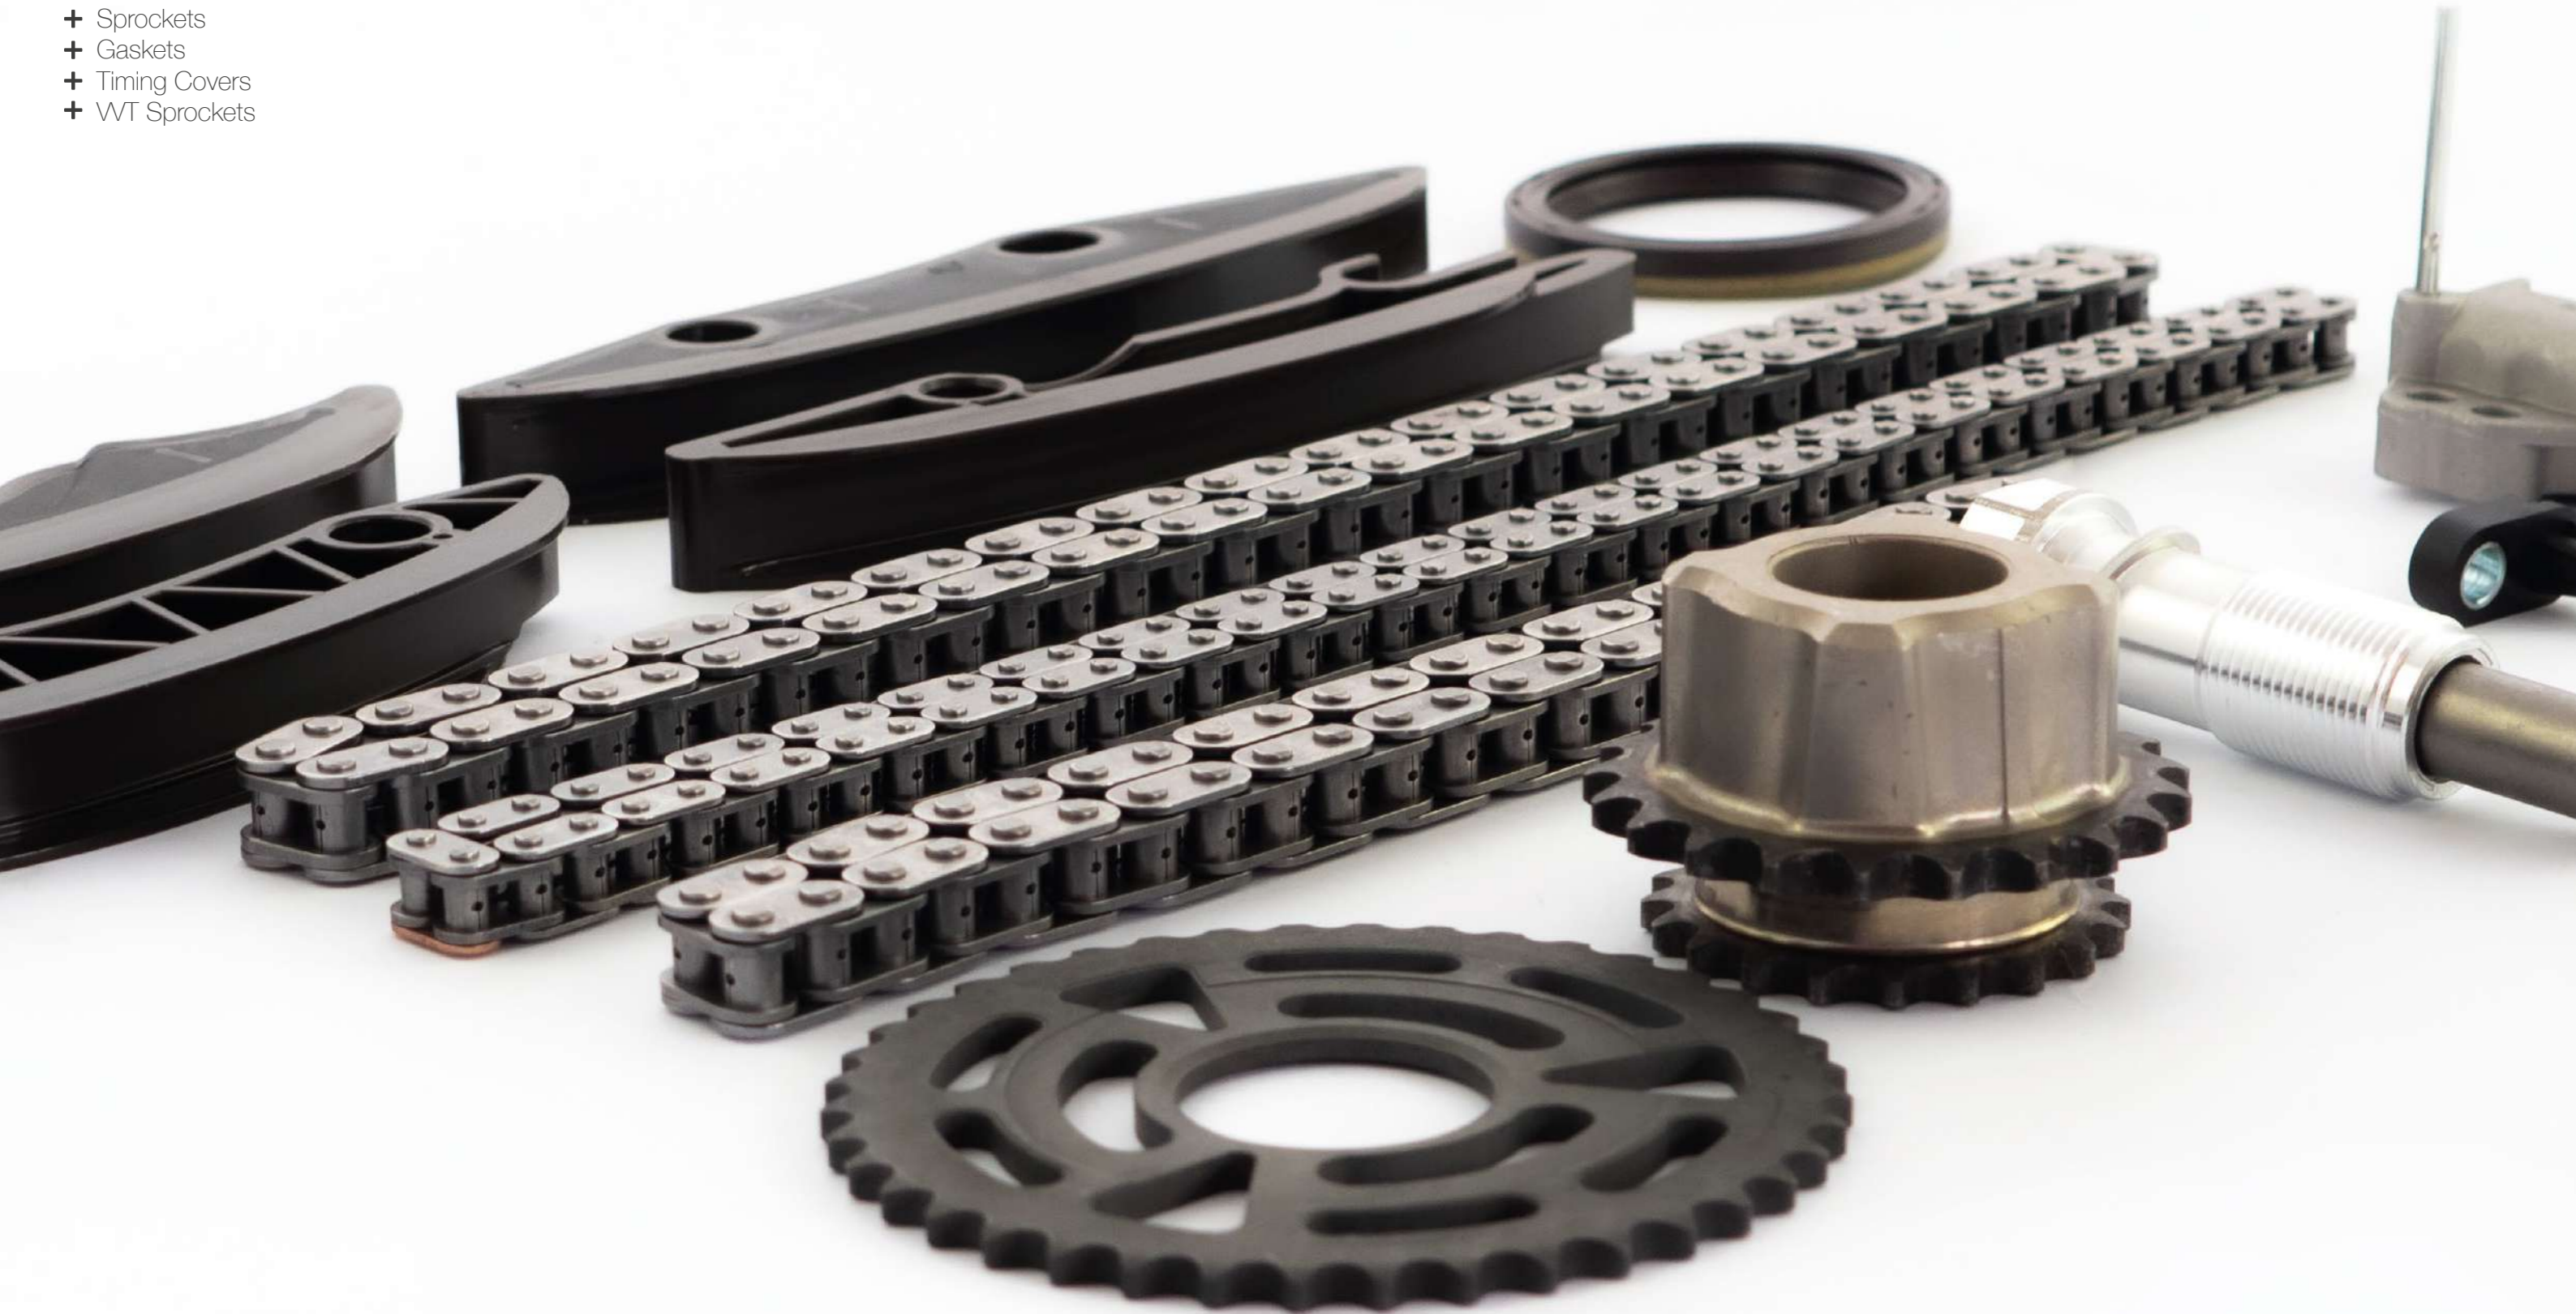

Timing Belts, Components and Water Pumps are manufactured using the latest technology in heavily invested state-of-the-art facilities. Our Timing Belts are manufactured from top of the range materials including HNBR Rubber and aramid fibres. As an upgrade from OE Plastic – 95% of our water pump range include Aluminium or Steel impellers as standard.

BGA Timing Chain Kits

Whats included?

- + Timing Chain(s)
- + Tensioners
- + Guides
- + Sprockets
- + Gaskets
- + Timing Covers
- + WT Sprockets

Timing Chain Kits from BG Automotive include over 350 quality references supporting more than 6,000 applications. Our complete Kits include all the necessary components including Tensioners, Guides, Sprockets, WT Sprockets as well as Gaskets, Seals, Bolts and Oil Feed Pipes where applicable. The range also features several Timing Covers with respectable range coverage.

BGA's Timing Chain Kits are subject to thorough testing before passing approval by the Technical Engineering Team. Among a range of tests, Timing Chains are tensile tested, Guide Arms are material tested and Tensioners are functionality tested. Additionally, Sprockets, Chains and Tensioners are all hardness tested to ensure materials continue to meet our high-quality standards.

BGA Transmission Range

Whats included?

- + Drive Shafts
- + CV Joints
- + Accessories, metal clips, greece, boots

BGA's Transmission range features 100% brand new Driveshaft's and CV Joints. Our Drive Shaft and CV Joint Kits have been released to relieve the stress on mechanics, eliminating any time wasted sourcing all of the correct components, and preventing incorrect ordering. Being brand new – there is no surcharge system to worry about and the range features over 750 references to choose from.

The range has been engineered to perfection and tested endlessly on bespoke real-life simulation machines in BGA's UK headquarters to match and exceed that of OE equivalent.

All shafts are 100% inspected with "go / no go" spline gauges to ensure that the critical tolerance of the shaft splines is accurate. Hardness testing of all components is also undertaken in house to ensure longevity. In some applications, in order to avoid excess vibration, a torsional vibration damper is fitted to the shaft.
