CH6700A

1.5 DV5 Head Gasket. Multi-Brand Coverage.

The 1.5 DV5 diesel engine, found across PSA, Ford, Vauxhall/Opel and Toyota vehicles, operates under high combustion pressures and repeated thermal cycles that can lead to head gasket failure, coolant loss and serious engine damage. With over 400,000 compatible vehicles on UK roads, this presents a significant aftermarket repair opportunity. BGA's CH6700A Cylinder Head Gasket provides an OE-quality replacement with Multi-Layer Steel construction, precision-engineered sealing and an industry-leading 5-year warranty.
