## SAFETY CRITICAL QUALITY

Steering & Suspension parts and components play a vital role in keeping the vehicle safe on the road under all conditions. If something fails, the consequences can be fatal.

BGA take quality seriously, and will only release products to the production line once the part has proven to match Original Equipment quality standards through vigorous testing processes.

Track Control Arms are electronically coated (cataphoresis) for longer lasting corrosion protection. This significantly reduces salt, dirt and water ingress, increasing the product lifespan.
