BGA Timing Chains come supplied to you pre-lubricated with our specially formulated chain lubricant. BGA's Chain Shield unique formula guarantees the pre-lubrication to synchronise with your choice of engine lubrication, with no adverse effects to the engines lubrication system.

- Protects the chain against external elements up to and during the installation.
- Aids in the lubrication of the chain on initial start-up after installation, prior to the full engine oil supply reaching your newly fitted components.
- Reduces the risk of premature wear occurring by running a non-lubricated chain.
